

-Biology Seminar Series-
Spring 2020, Southeastern Louisiana University
Thursdays 4:00-5:00, Meade Hall 112

- 23 Jan **New Grad Student Presentations – Group 1:** Brock, Crockett, Henderson, Mahoney, Stevens
- 30 Jan **New Grad Student Presentations – Group 2:** Ebanks, Pigott, Presler, Rivera, Robertson,
- 6 Feb Dr. Mark Davis, Tulane University
Director, Tulane Institute on Water Resources; Director, ByWater Institute
Adapting to changing coasts: Managed retreat through the lens of law and policy.
- 13 Feb Dr. Shannon Martin, NOAA
An integrated ecosystem assessment of Barataria Basin.
- 20 Feb **Mardi Gras Speaker**
Dr. Anne Yoder, Duke University
Cryptic is as cryptic does: Intriguing patterns of speciation in Madagascar's mouse lemurs.
- 12 March Dr. Donald Walker, Middle Tennessee State University
Host-microbiome-pathogen interactions: A comparative approach across ecological scales.
- 26 March Dr. Joel Atallah, University of New Orleans
Many roads to independence: Comparing the maternal-zygotic transition across *Drosophila* species.
- 2 Apr Dr. Kate Ihle, USDA Honey Bee Breeding, Genetics, and Physiology Laboratory
Honey bee behavioral genetics.
- 30 Apr Dr. Travis Hagey, Mississippi University for Women
Adaptation and diversity of lizards with adhesive pads.
- 7 May **BGSO Super Speaker**
Dr. Melanie Stiassny, American Museum of Natural History
fish – biodiversity – systematics
