

The Bachelor of Science degree in Occupational Safety, Health, and Environment (OSH&E) program at Southeastern Louisiana University is designed to provide an academically comprehensive program that prepares graduates with the ability and competency to become highly qualified safety, industrial hygiene, and environment professionals.

The OSH&E four-year degree program is undergoing a preparation for the Accreditation Board for Engineering and Technology (ABET) accreditation. The two-year Associate of Applied Science degree program has been accepted for the National Association of Industrial Technology (NAIT) accreditation. Because of these, students have access to both the high-quality courses and the most technologically advanced equipment in the state.

Southeastern is expanding its OSH&E course offerings to meet the needs of current and potential safety and health professionals in the Greater New Orleans area. Three major courses are offered through compressed video in Spring 2010.

OSHE 111. *Introduction to Occupational Safety and Health*. Credit 3 hours. This course introduces general safety and health concepts. Major topics include: occupational safety and health terms, historical developments, program concepts and terms, legislative overview, including worker's compensation law, problem identification, hazard recognition, evaluation and control concepts, and an introduction to measurement and evaluation.

Monday 6:00 PM – 8:50 PM
Compressed Video Class
John Ehret High School
4300 Patriot St.
Marrero, LA 70072

OSHE 382. *Construction Safety*. Credit 3 hours. Prerequisites: Enrollment in or prior credit for OSHE 111 and OSHE 121. The course studies the application of management principles, communication and human relations factors, safety/health rules, industry and federal standards, accident investigation, and technical issues especially within the job planning phases in the construction environment.

Tuesday 6:00 PM – 8:50 PM
Compressed Video Class
John Ehret High School

4300 Patriot St.
Marrero, LA 70072

OSHE 322. *Behavioral Aspects of Safety*. Credit 3 hours. Prerequisite: Psychology 101. This course will introduce students to the application of scientific research based principles and methods to bring about change in the work culture through attitude, behavior, and environmental conditions. Specific topics will include traditional approaches and philosophies for improving safety, environmental effects, incentives, developing and building cultural change, identifying critical behavior, developing checklists, giving and receiving recognition and measuring performance.

Wednesday 6:00 PM – 8:50 PM
Compressed Video Class
John Ehret High School
4300 Patriot St.
Marrero, LA 70072
