Phone (985) 542-6664
Website <http://anatomixpt.com/>
Description Outpatient physical therapy clinic
Reviews 2018 10 Activities: I kept the clinic clean and worked with patients on a daily basis. Comments: It was a great experience. Other students should expect to be in a fast environment where they can learn all about therapy.

Name of site Anthon Chiropractic Care
Address Hammond, LA
Phone (985) 542-1640
Website <http://anthonchiro.com/>
Description Chiropractic Care for Southeastern Louisiana
Reviews 2016 10 Activities: Assisted patients with their rehabilitation programs. Prepared patients for electric stimulation and checking patients into adjustment rooms. Comments: I would absolutely suggest Anthon Chiropractic Care to anyone interested in the chiropractic field or in physical therapy. I could not have asked for a better supervisor to watch over me while I was interning.
2016 10 Activities: I worked in the rehab and therapy sections of the clinic. Comments: I would recommend this place because the people were very welcoming and warm, and the job was satisfying.

2018 8 Activities: Mostly rehab with patients. Comments: It is a great location with a lot of potential opportunities. My mentor was great. The site has a lot of daily patients; therefore, it can be difficult to build personal relationships with patients.

 Description Sports performance, Olympic lift training
 Reviews

2016 8 Activities: Coached athletes in proper techniques and applicable exercises. Comments: It is a great place to learn about coaching and olympic lifts. My mentor, Matt, was an amazing coach. He does not sugar coat things.

- 2016 10 Activities: I created programs for tactical athletes and refined my coaching skills. Comments: I would recommend it for everyone. They should anticipate programming, coaching, and learning.
- 2018 10 Activities: I trained athletes in both one on one and group settings. Comments: I definitely recommend this site because you get to learn exactly how classroom work translates into the gym while learning from the best in business. Also, the smaller setting allows everything to be more personal when coaching and being taught by the supervisor.

Name of site Cancer Center of Greater New Orleans
 Address New Orleans, LA
 Phone (800) 624-2039

- Reviews
- 2016 10 Activities: Updated patient files, prepared and presented materials for health fairs. Comments: It was a great experience and I would recommend this site to others. My supervisor was great to work with.
 - 2018 10 Activities: Data entry. Research. Traveling with my supervisor and meeting with health educators and medical and educational staff. Promoting health education and community outreach work. Comments: Future interns should be prepared to use most of the skills they learned at Southeastern, especially if they're health education majors.

 Description International Catholic, faith-based, not-for-profit health system
 Reviews 2016 10 Activities: I gathered patients' charts and studied them, informing the PA of anything they needed to know such as medical insurance, current illnesses or medications, etc... I also helped with simple procedures such as suturing and wrapping injured ankles/wrists. Comments: I would probably not recommend this site to others because of how far it is away from school. If students were to intern at this site, it would be up to their supervisor what they would be able to do. I was fortunate to have a supervisor who allowed me to participate in a wide varietyh of activities.

|--|------|----|--|
| | 2016 | 8 | Activities: Helped train clients in both individual and group settings. Learned about programming and prescribing workouts. Helped demonstrate exercises, and helped record clients' progress. Comments: If you want to personal train or strength and conditioning train as a career, then I recommend this place. My site supervisor was great. |
| | 2016 | 10 | Activities: I made sure the gym was clean at all times. I trained clients, and I did my own workout programs. Comments: I've learned so much since I've been at my internship. Future interns should expect to be constantly moving and on their feet. |
| | 2016 | 10 | Activities: 1. Keep facility clean and organized. 2. Organized weights when not in use. 3. Help train clients when facility is busy. 4. Help track progress of clients. Comments: I would recommend this site for internships. I feel Dakmark Performance has provided me with useful knowledge and experience that I will be able to use in future Kinesiology based careers. |

2018 10 Activities: Cleaning, personal training, and managerial work. Comments: This internship was beyond informative in the field of professional training. My mentor was passionate in his craft and more than willing to teach it.

 Reviews

2016 9 Activities: Took patients' blood pressure and assisted them in their workouts. I participated in Phases I, II, and III or cardiac rehab. Comments: I would recommend students to intern at EJGH Cardiac Rehab. It was a great learning experience and there was always something to do. Students will take blood pressures, assisting patients with exercise machines. My site supervisor was very helpful in teaching me things I needed to do if I was not sure about certain tasks.

2016 9 Activities: Taught fitness classes. Cleaned and maintained equipment. Observed members and safety policies. Attended lectures and benefit fairs. Comments: I would recommend this site to other students because you get hands-on experience with disease management patients. My supervisor was an ideal mentor because they gave me tasks to complete every week with room to venture out on my own and experience as much as I could in the short amount of time.

2016 10 Activities: I was responsible for checking AED logs, taking inventory of first aid bags, restocking cholesterol kits for wellness screenings, participated in off-site wellness screenings. Performed fitness testing for firefighters daily (including treadmill protocol and strength testing). Comments: I would definitely recommend this site to others because of the friendly and productive atmosphere.

Name of site Franco's Athletic Club
 Address Mandeville, LA
 Phone (985) 792-0200
 Website www.francosmandeville.com
 Description Fitness Center/Spa

Reviews	2016	6	Activities: Clean machines, assist members with spotting, answered members questions, folded towels. Worked as if I was a regular employee. I also interacted with clients in Franco's Parkinson's class. I found that portion of my internship very interesting. Comments: My supervisor could have been a little more hands-on with the interns. At times I felt like we were just left to our own resources. I would recommend this site to others if they know what they want to study during their internship. If they don't, they will find themselves bored through the semester.
	2016	1	Activities: Monitor the fitness desk. Comments: I did absolutely nothing. I would not recommend anyone to intern at Franco's because the supervisors there are not hands-on with any of the interns. The management at Franco's did not want to take any time to help me develop. They just wanted me to stand behind a desk and monitor the gym.
	2016	10	Activities: My responsibilities included taking members through the simple strength circuit, cleaning machines, re-racking weights, folding towels, closing the club, and greeting members at the front desk. Comments: I would recommend this site to those who enjoy working in a gym setting. I enjoyed how my internship site supervisor met with me periodically, but was not watching we work at all times.
	2016	3	Activities: Cleaned, observed, and maintained the weight floor. Helped with weigh-ins for fitness programs. Comments: I would not recommend this site for future internships because there's not much to do and there's not much opportunity to learn. My supervisor was rarely present and I only saw her when she needed help with something. She could have ensured we had specific tasks and things we could learn while we were there.

Name of site Functionally Integrated Therapy and Training
 Address Perkins Road, Baton Rouge, LA
 Phone (225) 769-4100
 Website www.gofitt.com
 Description FITT is a team of specialists in the field of training, therapy and nutrition.

Reviews	2016	10	Activities: Trained clients under supervision, performed Biotonix, AKA, and MKA assessments. Processed data through FITT software. Prepared evaluation rooms. Cleaned equipments. Assisted trainers in determining dysfunctions, tensions, and misalignments. Comments: I would recommend this place for internship because I learned so much and the staff were great. They were patient and understanding, and they wanted me to do my best.
	2016	10	Activities: Learned how to prepare and perform a full posture, mobility, and flexibility assessment; learned foundational exercises each week. Assisted trainers in evaluations. I entered evaluation data into their computer software programs to run reports. Comments: I would highly recommend this site to prospecting interns. I felt like I was taking a class with the amount of knowledge and skills that I learned.
	2016	10	Activities: I participated in Biotonix evaluations, AKA, and OKA evaluations. Read texts and articles. Took weekly quizzes. Taught exercises. Learned how to properly perform exercises. Comments: Yes, I recommend this site because it gives students an opportunity to learn more than what is being taught in the classroom. My mentor was amazing. She's very detailed and punctual and she is available any time for questions.
	2016	7	Activities: I learned new exercises and correct terminology for different things. Regular activities included processing evaluations and shadowing trainers. Comments: I would recommend students to intern there because it was a great experience. My intern supervisor was great. She did her job and made sure we were learning and stayed occupied.
	2016	8	Activities: I learned several different exercises along with their progressions and compensations. I shadowed the trainers to get a first hand experience on how the session goes. Comments: I would recommend this site because I feel I've learned so much. It was a very hands-on approach to learning. I learned new software as well.
	2016	10	Activities: Training clients under supervision, performing Biotonix, AKA, and MKA assessments processing data through FITT software. Assisted trainers in determining dysfunctionss, tensions, and misalignments. Comments: You will learn more here than you probably will in a class-room setting.

2018 10 Activities: My duties include completing paperwork such as, reporting documents, evaluation / re-evaluation materials, home programs, program designs, SOAP notes. Also, I answered clients' questions, making smoothies, and maintaining client relations. I also proactively participated in overall facility operation, cleaning gym equipment, putting away equipment, and setting up the room for evaluations. Comments: I would recommend this intern site to future interns. Anyone interested in corporate wellness, personal training, and assessments that we have done in our curriculum.

Description	Physical Therapy	
Reviews	2016	10 Activities: I was responsible for ensuring patients properly performed their exercises, and to help them when necessary. Comments: The PTs allow a lot of hands-on experience. They also encourage the students to watch in order to learn. My mentor was great. She allowed me to sit in with her during initial patient evaluations. She also allowed me to watch her perform procedures I would be doing as a PT.

 Phone (225) 372-3991
 Website <http://www.lexleeskids.org/>
 Description Non-Profit dedicated to safety education for children ages 0-18.
 Reviews

2016	10	Activities: Organized and presented the gun safety programs for Lexlee's Kids. Also, I assisted in the Ready, Set, Drive and Bike and Pedestrian programs throughout the semester. Comments: I would definitely recommend students to come here. Being in the classrooms made it great.
2016	10	Activities: Presented different safety topics to parents and children from pre-k to high school. Wrote Safety blogs and did car seat safety checks. Comments: This is a great site because it builds on skills we have learned in school like presenting, writing, communicating with people, networking, and interacting with children.
2016	9	Activities: The main thing that I did was present the Ready, Set, Drive program. I also participated in health fairs promoting the different programs Lexlee's Kids has to offer. Comments: I recommend this site because it gives you so many different opportunities to be involved in the community and to make a difference in people's lives.
2016	10	Activities: I was in charge of the Ready, Set, Drive program that went into High Schools and Driving Academy's to talk about distracted driving and drinking and driving. Comments: I was able to experience much more than I expected. My mentor continuously encouraged me to do my best at all times. I was treated as an employee and I experienced a lot.

 Reviews 2016 7 Activities: I structured wellness activities for employees. I created bulletin boards to promote wellness programs. I assisted with health fairs. Comments: I would recommend this internship for students who want to be a wellness coordinator. My site supervisor was helpful.

 2016 10 Activities: I had to create 5 different monthly bulletin topics in addition to updating 22 additional boards. I had to create weekly educational emails for the weight management program. I had to complete body composition, such as weigh-ins and weigh-outs for the employees that participated in the health challenges. Comments: I would definitely recommend this site to other students. This internship site gives you a different perspective of health wellness in the business world.

Name of site North Oaks Hospital - Cardiac Rehab
 Address Hammond
 Phone (985) 345-2700
 Website <http://www.northoaks.org/Medical-Services/Heart-Health.aspx>
 Description Cardiac Rehab
 Reviews 2016 10 Activities: Checked blood pressure, oxygen saturations, and printing EKG strips. Also, I got to go into Inpatient Cardiac Rehab. Comments: I would recommend this site to other interns. The activities I performed during my internship will be applicable to real-life; thus, I'm thankful for my experience with North Oaks Cardiac Rehab.

- 2016 10 Activities: I did all hands-on patient care work, which included placing telemetry leads on patients, reading EKGs, educated patients on prescribed diets and risk factors, assisted patients with their exercise equipment, took and documented patients' vitals. Comments: This site is truly amazing. The staff is very helpful and supportive. Students should anticipate stepping out of their comfort zone and having patient interaction.
- 2016 10 Activities: Set patients on the exercise machines. Attain patients oxygen saturation if needed and also record their dyspnea and angina level. Comments: I would definitely recommend this internship site to students. Students should anticipate to be comfortable, eventually, taking blood pressures, oxygen saturations and setting patients up on different exercise equipment.
- 2016 10 Activities: I checked patients in and out (taking blood pressure, checking oxygen saturation, and attaching electrodes for ECG monitoring), setting exercise equipment and taking any required measurements after exercise (asking for RPE, checking oxygen saturation, or taking blood pressure). Comments: I would recommend this site to other students. The site supervisor did a great job.
- 2016 9 Activities: Helped patients check in and out of rehab. Helped them set-up their exercise machines. Comments: This place was satisfactory because it was a constant learning experience. They should anticipate always being around patients. The nurses at North Oaks were ideal mentors. We saw them more than our site supervisors.
- 2016 10 Activities: Measured pre and post exercise blood pressure. Used pulse oximeter to check heart rate. I hooked up a heart monitor to patients and placed electrodes on the patients' chest. I participated a six minute walk tests with patients in which I recorded their heart rate and oxygen saturation. Comments: I highly recommend this site to future interns who want to pursue a career in healthcare and enjoy working with adult and geriatric population.
- 2016 9 Activities: Checking patients blood pressure, measuring the patients' oxygen saturation levels, connecting the patients to the heart monitor and assisting the patients with exercise equipment. Comments: I would absolutely recommend this internship site to other students. It gave me an opportunity to expand my knowledge about the cardiovascular system, and it help me to interact with patients.
- 2016 7 Activities: Took blood pressure, used a pulse oximeter, checked RPE, helped inpatients use spirometer, assisted with cardiac and 6 minute walks. Comments: I would recommend the inpatient intern position to hardworking students. The site supervisor was friendly and laid back.
- 2016 10 Activities: I recorded patients' blood pressure, oxygen level, heart rate, and blood sugar, if needed. Placed electrodes on and off patients, printed pre and post EKG strips. Set patients up on the document RPE and SPO2 after each exercise. Comments: I recommend this site to future interns because you apply so much of what you learn in class while you're interning.

Name of site North Oaks Hospital (Health Transition Alliance - Health Coaching)

Address Hammond

Phone (985) 345-2700

Website www.northoaks.org

Description Health coaching at North Oaks hospital

- Reviews 2016 10 Activities: We visited patients in their homes, typically once a week to counsel about their health. We participated in meetings Monday, Tuesday, and Thursday. Monday meetings were with the HTA staff to report about our patients and ask questions. Tuesday meetings were with the doctor about the patients. Thursday meetings were with Dr. Wood to discuss our patients and ask questions. Comments: I would recommend this site to future interns because they would get hands-on experience with the patients, the doctors, and the other staff.
- 2016 8 Activities: Coached patients to adopt a healthier lifestyles. Staffed patients with a medical team. Participated in projects which helped us learn and teach about certain health conditions. Comments: I would highly recommend the North Oaks Health Coaching Internship. It's very involved and the hands-on experience is great.

- 2016 8 Activities: Met with patients at their homes and educated them on their diseases (COPD, Pneumonia) and participated in weekly staff meetings. Comments: The experience was very hands-on. I learned so much from being around different types of patients. All the staff were great. They made us feel like we weren't just interns, that we were part of the staff, instead.
- 2016 9 Activities: I was a health coach intern at North Oaks. I had my own patients and visited them weekly in order to help them make positive behavior changes. We had two weekly meetings; one with HTA staff and every other week we would meet with Dr. Wood to discuss any concerns we were having. Comments: I would only recommend this internship site to people who genuinely want to work with patients on a daily basis in order to make a difference in person's life. This is a one-of-a-kind experience and is not for those that do not want to take it seriously.
- 2016 9 Activities: I went to patients' homes and did health coaching and motivational interviewing. Comments: Dr. Wood and the North Oaks' staff are very helpful and it was a great learning experience.
- 2016 9 Activities: I worked with high-risk and non-compliant patients with a variety of chronic diseases. I utilized health coaching and motivational interviewing techniques with these patients to help provide them with education and motivation to comply with the physician's orders. Comments: The HTA staff and Dr. Wood were a joy to work with and I learned a lot. Future interns should anticipate collaborating with others and learning about chronic diseases. Plus, they will be scheduling their own times.
- 2016 10 Activities: I did patient care, motivational interviewing, health education, and patient report cards. Comments: I would recommend the health coaching internship because it is very rewarding. You could potentially save a life during the semester.
- 2016 7 Activities: I worked with the Health Transition Alliance and worked with patients on keeping them from being readmitted to the hospital. Comments: It's a great opportunity to get patient experience and understand what it feels like to work in the health field.
- 2016 10 Activities: I worked with patients to help them establish health goals and achieve them, as well as overcome obstacles (i.e. financial, social, etc.) to get there. I worked with a staff of doctors, nurses, and a health coach to staff my patients and ensure that they received the proper care. Comments: I feel that I've learned so much at this internship because I was able to witness how the hospital functions on multiple levels, as well as the patients' views on the process.
- 2016 10 Activities: I met with patients in their homes and practiced health coaching with them. I also helped patients keep up with their doctor's appointments. I notified the hospital staff when emergencies arised. Comments: This is a very rewarding internship with lots of learning opportunities and hands-on, real-world experience. I do feel the supervisors could have communicated better with us in a better tone and treated all the students fairly.
- 2016 8 Activities: I worked with patients at the hospital and at their homes to practice motivational interviewing in order to have a positive impact on their health behavior. Comments: I would definitely recommend this internship site. I thought our mentor was great. He was always there when we needed something.
- 2016 9 Activities: I worked as a health coach. I would see my the three patients I was assigned to twice a week. I was responsible on educating them on their diseases processes. I also had to do SOAP notes. Comments: I thought this was a great experience. The staff was great.
- 2016 8 Activities: I helped patients using motivational interviewing. Comments: This was a great hands-on experience. Dr. Woods was amazing. He was such a hands-on mentor. He would hold meetings every Thursday to hear our opinions and what improvements could be made for us at the site.
- 2018 10 Activities: I was responsible for meeting with patients, staffing patients with a doctor, weekly huddles with nurses, and rotations around the hospital. Comments: I recommend this site to future interns because they would not get a better experience anywhere else.

 Reviews 2016 10 Activities: Monitor patients' heart rate, blood pressure, spo2, and RPE levels. Cleaned heart rate monitors. Ambulated patients after surgery. Comments: This was a great opportunity for me. I was given the opportunity to follow PT/OT around as well as attend some nutrition classes.
 2016 10 Activities: Assessed BP, Monitored HR, Recorded RPE number, checked oxygen saturation, cleaned HR monitors. Educated patients on post-op care and diet. Walked with patients. Comments: I would recommend this site to future interns because of the hands-on experience they will get and the variety of patients they will assist.
 2016 8 Activities: Helped ambulatory patients, check Spo2, HR, BP, made patients charts. Comments: Yes, I would recommend this site because it was a good hands-on experience with people. They need to expect to do blood pressures and help people walk. This is a nice work environment and a good learning experience.

Description Worksite health/fitness.

Reviews	2016	8	Activities: Assessments (blood pressure, waist msmt, body composition), planned and led group exercise classes, worked health fairs, provided health coaching, maintained facility. Comments: Great experience ... Supervisor and staff helpful ... Ideal for trying different aspects of fitness industry ... Weakness was lack of depth/specialization into specific aspects.
	2016	6	Activities: I assisted with health fairs which included taking blood pressure, weight, height, and waist circumference. I also participated in and/or taught group exercise classes. Comments: Would I recommend this site to future interns? Yes and No. Overall the internship wasn't too bad. There was very poor communication throughout the semester and not much opportunity for learning. The staff was very friendly.

Description General hospital.

Reviews	2016	10	Activities: Implemented community programs such as Hand Washing, Hand Hygiene, and Food Safety classes. I also made flyers, brochures, and handouts for different events. I conducted health screenings that included blood pressure, BMI, glucose and weight. Comments: I recommend SMH because the supervisor really gets the interns involved in just about every aspect of the program.

Name of site SLU Athletics / Strength & Conditioning

Address Hammond

Phone (985) 549-2253

Website www.lionsports.net/

Description university's athletics - all teams.

Reviews	2016	7	Activities: I coached athletes in the proper technique for different lifts, i.e. clean, bench press, squat, and various other exercises. Also helped set-up, clean, and maintain facilities. Comments: I recommend this site for people interested in this line of work, which gives you a first look into the strength and conditioning profession. This environment can be high-stress at times.
---------	------	---	--

- 2016 9 Activities: Assisted the staff with coaching athletes from different sports. Prepared the field or the weight room for their workouts. Comments: If a student has the aspiration of becoming a head strength and conditioning or sports performance coach, I would highly recommend interning here. The staff gave a real-world insight on what it's like to be a college strength and conditioning coach.
- 2016 3 Activities: Coaching the warm-up for volleyball and cheer and dance. Also cleaning the facility and setting up for team workouts. Comments: I do not recommend this site for future interns because there was some disrespect in my opinion coming from the staff that I feel was unnecessary and unprofessional.
- 2018 5 Activities: Maintained gym floors and equipment. I would set up and break down before and after each training session. Motivated and coached athletes during sessions. Comments: I would recommend this site to students who want to coach college athletics. This site requires a student to be in good shape because it's extremely physically demanding. Please take note; there was one coach who was unapproachable and difficult to work with. His attitude appeared to be one of, "please don't bother me interns."

- 2016 6 Activities: Designed a fitness program for kids who attend the lab school on campus. Comments: This site was fun because the staff was constantly trying to find new ways to promote health, wellness and fun for everyone. My main issue with this site is that the staff did not seem prepared to take interns. At times it was boring.
- 2016 3 Activities: I designed a running program for children K-8 and completed workouts with them twice a week. Comments: I would not recommend this site for future interns because there is not much for interns to do. My supervisor was nice, but she was so busy and did not give me many tasks to complete.

Reviews 2016 10 Activities: I instructed my clients through their exercise program. I set up all of their machines and equipment needed during their program. I would instruct exercise and correct form. Comments: I would definitely recommend students to my intern site. They should anticipate designing exercise programs and instructing exercise. The participants age range is from 16 to 85, and some of the clients have physical limitations.

Reviews 2016 9 Activities: Greeting guests, cleaning facility, training members. Comments: I would recommend this facility to future interns because it is a very encouraging environment where you learn a lot of new things and have the opportunity to develop personable relationships that help with networking.

2016 9 Activities: Worked the front desk. Made sure members had what they needed and made sure the floor and the machines were clean. I thought the work atmosphere was amazing. Everyone there is so friendly. I had a great mentor and I recommend this site for future interns.

2016 10 Activities: My duties were mainly to take blood pressure, assist the patients with their program, and give education in phase I. Comments: I would definitely recommend this site to future interns because the staff were very friendly and were willing to help. My mentor was completely willing to help with any and everything.

2016 10 Activities: I helped patients get set-up on their 4-lead monitors and also checked their blood pressure three times throughout their exercise session. Comments: I would recommend this site to future interns because the staff was amazing and there was always something to do.

 Description Gym that focuses on sports performance.
 Reviews 2016 10 Activities: I assisted in training athletes ranging from 9 years to mid 50s, assisted with some physical therapy and maintained functionality of the facility. Comments: I would absolutely recommend this site. I had an ideal mentor. His outlook on his profession and his continuing education is an ideal example of what catapults great PTs past the rest. I was very fortunate to be under his guidance.
 2016 10 Activities: I shadowed the PT and supervised exercises and workouts. I made sure people were doing exercises correctly, as well as using th equipment correctly. Comments: This place was an awesome site to learn and further my studies. Also, the staff was very eager to help with anything I need in regards to learning new tasks and skills.

 Description A Baton Rouge fitness center just for women

Reviews	2016	10	Activities: Sat in on training sessions and was able to give input and correct improper form. Participated in assessments and was able to lead some later on. Comments: It was a great experience and wonderful environment. The trainers work with you hands on and let you do tasks on your own.
	2016	8	Activities: I shadowed the personal trainers. I helped with assessments, new trainings, and personal trainings. Cleaned equipment as well. Comments: Yes, I would recommend other students for this site. It was really eye opening and gave me direction for after graduation. This site was good because it prepared me for getting a professional job.
	2016	10	Activities: I was given the opportunity to do almost everything their trainers are allowed to do. I was allowed to perform general training sessions. I was allowed to perform fitness assessments as well, which included sub-maximal VO2 cardio talk tests, girth measurements, skinfold measurements, and medical history questions. Comments: I would recommend Woman's because the trainers are so wonderful and knowledgeable and are always willing to help.
	2016	10	Activities: Perform fitness assessments, write work out plans. Comments: I would recommend this site for a future internship because you practice a majority of things you learn in school here. The trainers are always ready to help.

Reviews 2016 5 Activities: I assisted patients, pressure point therapy, client screening, and paperwork.
Comments: I would not recommend this site to other students because while the doctor there is kind and knowledgeable, he also runs a very toxic environment, and is not a suitable site. Anticipate a lot of yelling if any other student decides to intern there.
