**Admission Requirements:** Candidates must apply for admission into this program. Admission criteria include: (a) a minimum cumulative GPA of 2.30 on all undergraduate coursework completed, and (b) proof of concurrent enrollment in or completion of accredited certificate and/or associate degree from a clinical allied health program, and (c) completion of the following course requirements: English Composition (6 hours), Mathematics (3 hours, College Algebra or equivalent), Natural Science (9 hours, must include a two-course sequence), and Introductory Sociology (3 hours).

**Degree Requirements:** The degree requires a total of 123-126 hours, the 63 specified above and an additional 60-63 hours. Up to 30 of these hours may be awarded for clinical specialty coursework when students (1) complete an approved Associate Degree or graduate from an approved certificate program, and (2) meet the requirements for licensure/registration/certification in a clinical health care specialty.

**NOTE:** Students are eligible to declare this major while enrolled in an approved Associate Degree or professional program, but are not eligible to enroll in HS 499 (Senior Internship) until they (1) complete the Associate Degree or graduate from the certificate program, and (2) meet the requirements for licensure/registration/certification in a clinical health specialty.
