

Message from the Interim President

As Southeastern continues to mature, attracting more and more outstanding students and responding to the unique needs of southeast Louisiana, the university's influence and impact on the region grows stronger. Increasingly, Southeastern is looked upon as a source of expertise and leadership. It is a responsibility we take very seriously.

When students choose Southeastern they trust we will afford them every opportunity to obtain a meaningful education that prepares them for life after graduation – whatever it may hold.

This trust is something Southeastern readily embraces, an acknowledgment that “integrity” remains one of our institution's core values. It means the university adheres to high moral and ethical principles. It has been – and will remain – an important element of Southeastern's foundation.

Growing with Integrity: “Combating Nursing Shortages”

According to leading nursing work force analysts from Vanderbilt University, there could be as many as 500,000 vacant nursing positions nationwide by 2025. This severe shortage could incapacitate the health care system, leaving many patients without access to proper medical care.

Additional state funding allows Southeastern to enroll more nursing students to address the shortage. Southeastern, the fifth largest nursing producer in the United States, is working with state nursing and education leaders to recruit more students into the profession, give them a high quality education that is grounded in the realities of the workplace, graduate more nurses quickly, and help keep them on the job.

In addition, Southeastern is now participating in a state-sponsored program designed to help registered nurses holding a diploma or associate degree earn their bachelor's degree, an important step in career advancement. Through the state's Center for Adult Learning in Louisiana, Southeastern is offering the degree program through a fast track, completely online initiative.

According to Southeastern School of Nursing Director Barbara Moffett, “We’re seeing a great response to our recruitment efforts. I think we’re all doing our part to keep the workforce in place.”

A Brief History of Southeastern Louisiana University

Southeastern Louisiana University began as a grass roots movement by the people of Hammond and the surrounding area, who recognized the need for an institution of higher education in order to further the educational, economic, and cultural development of southeast Louisiana. What began as a junior college supported by local taxes has developed into a major university as Southeastern has grown to meet the evolving needs of southeast Louisiana and the Florida parishes.

On July 7, 1925, the voters overwhelmingly approved a bond issue that created Hammond Junior College. Operated under the auspices of the Tangipahoa Parish School Board, President Linus A. Sims opened the doors on September 14, 1925 with a faculty of three women, two men, and forty students. The two-year coeducational institution offered basic undergraduate work in arts and sciences that culminated in a teaching certificate.

Rapidly increasing enrollments quickly forced the college out of its two rooms in Hammond High School. In 1927, voters supported the purchase of the Hunter Leake estate on Hammond's north end. In 1928 Hammond Junior College became Southeastern Louisiana College, formally adopted into the state educational system under the control of the State Board of Education. The purchase of sixty acres adjoining the original fifteen-acre plot provided the space to develop a suitable campus, and in 1934, a state bond issue provided for the

construction of McGehee Hall and a gymnasium.

In 1937, the State Board of Education authorized curricula for four-year programs in liberal arts, teacher education, business administration, music, social sciences, and physical education. The first baccalaureate degrees were conferred in May 1939.

Voter approval of Act No. 388 in 1938, an amendment to the 1920 Louisiana Constitution, granted Southeastern Louisiana College the same legal status as other four-year colleges. The amendment did not, however, require the state to fund Southeastern at the level of other institutions of higher education, despite strong local support.

On March 3, 1946, Southeastern was formally approved and accepted into full membership in the Southern Association of Colleges and Schools (SACS) as a four-year degree-granting institution.

In 1960, the State Board authorized Southeastern to offer master's degrees through the newly-formed Division of Graduate Studies. Southeastern began awarding the Education Specialist degree in 1967.

Governor John J. McKeithen on June 16, 1970 signed into law the legislative act turning Southeastern Louisiana College into Southeastern Louisiana University.

A Brief History of Southeastern Louisiana University (continued)

In October of 1986, a group of faculty members launched Fanfare, a festival celebrating the arts, humanities, and sciences. Since then, Fanfare has become an acclaimed month long event, drawing nationally and internationally recognized artists and providing recognition for those closer to home. In addition to providing entertainment for the North Shore, Fanfare has an educational outreach program that works closely with local schools. In October 2005, Fanfare proudly celebrated its 20th Anniversary.

Southeastern's enrollment, continually increasing since its inception, reached an important milestone in 1997, registering over fifteen thousand students for the fall semester. Since 1925 Southeastern has conferred over fifty thousand degrees.

As Southeastern celebrated its 75th anniversary in 2000, the Fall semester marked an exciting change as Southeastern implemented screened admissions standards for the first time. These standards were strengthened in 2003 and again in 2005.

Fall 2003 saw the return of football to Strawberry Stadium. The Lions completed the season 5-7.

In Fall 2005 Southeastern implemented the Board of Regents Master Plan admissions criterion and then six days into the semester, Hurricane Katrina hit southeast Louisiana. While Southeastern suffered no major structural damages, many students, faculty, and staff were impacted. Also, Southeastern was able to play an instrumental

role in the relief effort by providing housing for the National Guard, disaster relief teams from across the country, and utility workers.

In Fall 2006, Southeastern enrolled its very first doctoral students. Ten students began in the Ed.D. in Educational Leadership that Southeastern offers in conjunction with the University of Louisiana – Lafayette. That fall also marked the opening of the Center for Student Excellence, a center to help provide students the resources they need to get the most from their education and graduate in a timely manner. The center was the result of many years of work by a large segment of the Southeastern community.

In Fall 2008, Southeastern received word that the Art program had been accredited by the National Association of Schools of Art and Design (NASAD). This achievement means that every degree program at Southeastern required or recommended by the State Board of Regents to achieve national discipline-specific accreditation has been reached.

Since 1925, many dedicated individuals have lead Southeastern from a junior college to the vibrant university it is today. Those individuals who have served as a Southeastern President are: Linus A. Sims, Yves Leon Fontenot, J. Leon Clark, George W. Bond, Gladney Jack Tinsley, Luther Dyson, Clark LeBlanc Barrow, J.B. Wooley, Clea Parker, J. Larry Crain, G. Warren Smith, Sally Clausen, Randy Moffett, and John Crain.

Demonstration of Integrity: “Pack the House for Pink”

The women’s basketball team demonstrated Southeastern’s students’ commitment to community advocacy through “Pack the House for Pink,” an initiative designed to raise breast cancer awareness.

“Breast cancer is a cause we are privileged to champion,” said women’s head basketball coach Lori Davis Jones. “Our program, university, and community are all very committed to promoting breast cancer awareness, as it has the potential to affect all our female

student-athletes.”

The Lady Lions hit the court sporting special pink uniforms for their Southland Conference contest with Lamar. At halftime, the team paid tribute to five honorary coaches, all breast cancer survivors, two from the Southeastern family and three from the larger community.

The event was especially poignant for the Lady Lions since their most famous alumnus, Robin Roberts, news anchor for ABC’s Good

Morning America (Class of ‘83), is currently battling breast cancer. Although she could not be there, she was represented by one of her team members, who carried a jersey with Robin’s old Southeastern number, 21.

The Women’s Basketball Coaches Association’s “Think Pink” initiative is a global, unified effort for the WBCA’s nation of coaches to assist in raising breast cancer awareness on the court, across campuses, in communities, and beyond.

In Spring 2007, Institutional Research and Assessment conducted a survey of alumni who had graduated in academic years 2002-2003, 2003-2004, and 2004-2005. Some highlights of the survey include:

- » The vast majority (95%) are satisfactorily employed.
- » Over three-fourths (80%) are continuing or plan to continue their education.
- » Most (88%) of the respondents employed full-time, work in the state of Louisiana, with the majority being employed in the area of their Southeastern major or a related area.
- » The average income of alumni exceeds the average income of Louisiana residents.

Honors Program 2007 - 2008

- » At the Fall 2007 Honors Program Awards Convocation, twenty-three students received the Sophomore Honors Distinction Award. All of these students had a GPA of 3.5 or higher after completing at least sixty hours, including at least twelve hours in Honors courses. Dr. Martin Kearney of the Department of English received the annual Honors Teaching Award.
- » Honors students participated in the National Collegiate Honors Council annual meeting in Denver, CO. Honors students Lucia Foster, Josh Robin, and Elizabeth Zaben and Honors faculty member Dr. Joan Faust represented Southeastern at this convention.
- » Anthony Mele received the Outstanding Honors Student Award from Phi Kappa Phi.
- » Eight senior theses were presented in public forums. The disciplines in which the theses were completed represent the breadth of the Honors Program: Biology, Management, English, History, Mathematics, and Political Science.
- » The Honors Student Team once again defeated all comers to win the Phi Kappa Phi Quiz Bowl during football Homecoming Week.
- » The Honors Club sponsored the Senior Awards Banquet in the Student Union Ballroom. At this banquet, graduating seniors were recognized for their efforts and presented with their Honors cords.
- » The Honors Program co-sponsored an interdisciplinary lecture series on Global Climate Change. The staff members were pleased to bring four speakers on campus representing the scientific, economic, public policy, and personal responsibility facets of this complex issue.

Other Demographic Characteristics of Southeastern Students

In the Fall of 2008, Institutional Research and Assessment conducted a survey of Southeastern's student body. The random sample survey provided the following background information on Southeastern's students.

- » Most (75%) of the respondents have never been married, and 20% are currently married.
- » About one-fifth (19%) of the respondents have children under the age of 18.
- » More than one-third (40%) of the respondents travel more than 30 miles, one way, to Southeastern's main campus, 31% travel between 5 and 30 miles, 17% travel less than 5 miles, and 12% live on campus.
- » The vast majority (73%) of the respondents work, with most of them (60%) working off campus. Ten percent (10%) work on campus and 4% work both on and off campus.
- » Of the students who work, 38% work 20 or fewer hours per week, 30% work 21 to 30 hours per week, and 32% work more than 30 hours per week.
- » Approximately one-fourth (26%) of the respondents are first-generation college students, meaning neither of their parents have any college education. Over one-third (35%) of the students have a parent who has earned a baccalaureate degree or higher.

Teaching with Integrity: “Fishes of the Lake Pontchartrain Basin”

Southeastern Louisiana University biologist Kyle Piller is on a mission to educate school children and others about the region’s wide variety of fishes. Through a grant from the Lake Pontchartrain Basin Foundation, he produced a poster picturing 30 of the more than 100 documented species existing in the lakes, rivers, and bayous that make up the basin.

“The majority of the fishes that occur in the basin are not sportfish and are not recreationally harvested,” Piller said. “Because of this, most species in the basin are unappreciated and don’t receive the ‘press’ that the sportfish do. But they are important species and play valuable ecological roles.”

Unlike previous fish posters that showed freshwater species of Louisiana and the fishes of the Gulf of Mexico, no previous efforts have been dedicated to depicting the variety of fishes indigenous to the region as a whole.

“I wanted to include a mixture of the marine, freshwater, and estuarine species that occur in the lakes, bayous, and rivers like the Tangipahoa, Blind, and Amite that comprise the basin,” he said. “I would like to see young children gain an appreciation for nature’s diversity and become better aware of all of the organisms that we have in the region.”

Integrity with Resources: “Louisiana Go Grants”

Southeastern has initiated several new scholarship programs in order to increase the affordability of a higher education. The University began a new financial aid program called Louisiana Go Grants. The Go Grant is the state’s new need-based college aid program funded by the state Legislature that was able to provide assistance to many Southeastern students.

The program is designed to bridge the gap between the federal Pell Grant aid program and the actual cost of attending a Louisiana college or university.

Southeastern also initiated its Progression Scholarship Program – the first of its kind in the state – designed to reward students who are making satisfactory progress toward their selected degree. Nearly 850 students qualified for the scholarship, which provides qualified freshmen who have completed 25 percent of their degree with a 2.0 or better grade point average a scholarship equal to 10 percent of their tuition and fees for their sophomore year. The scholarship will continue each year if the students maintain their progress.

“It is important that we make higher education more accessible,” said Interim President John Crain. “Affordability is a key barrier to many students, and the most efficient way to expand access to postsecondary education is to increase our investments in need-based aid.” “A college or university education has never been as important as it is today,” he added, “and the economic viability of our state relies on our ability to educate our residents, adequately prepare them for an evolving economy, and retain them for our workforce.”

Grant Highlights

Fiscal Year 2007 - 2008

- » **Dr. Diane Allen** (Education & Human Development) - \$300,000 for “Teaching with Primary Sources” awarded by the Library of Congress to expand current education course offerings and to create new opportunities to learn about and utilize primary sources available from the Library of Congress to improve educational achievement.
- » **Mr. Ron Abel** (TRIO/Upward Bound) - \$250,000 per year over 4 years was awarded by the US Department of Education for a new Upward Bound program to serve Jefferson Parish students. This program will add 50 Upward Bound students to the nearly 250 currently being served. Upward Bound’s mission is to prepare first-generation, low income students for success in higher education.
- » **Dr. John O’Reilly** and **Dr. Penny Shockett** (Biological Sciences) - \$186,895 from the National Institutes of Health for “Role of Segment 6 in Heart Na Channel Slow Inactivation” to better understand the relationship between molecular structure and physiologic function in voltage-gates sodium channels.
- » **Dr. Donnie Booth** and **Ms. Jean Urick** (Nursing) - \$180,000 for “Funding for Tuition for RN to BSN Students” awarded by the Southwest Area Health Education Center HearTS Program to assist in the recruitment, training, and employment of RNs in Louisiana.
- » **Ms. Rebecca Muller** and **Dr. Timothy Hudson** (Mathematics) - \$136,905 from the LA Board of Regents for “Enhancing Learning in Introductory Math Courses” to allow the expansion of the math computer lab beyond its pilot stage.
- » **Dr. Camille Yates** and **Dr. Colleen Klein-Ezell** (Teaching & Learning) - \$112,788 for “Project C.U.D.L.E. (Creating Universally Designed Learning Environments)” awarded by the LA Board of Regents to develop instructional models for inclusive learning using assistive technology. Through this project, Southeastern will be one of the first universities in the area to offer a comprehensive set of courses based on best practices for teachers in the area of assistive and instructional technology.
- » **Dr. Aristides Baraya** (General Business) - \$100,000 for “The Hispanic Business and Leadership Institute” awarded by the US Small Business Administration to provide learning opportunities to strengthen the socio-economic development of the Hispanic community in southeast Louisiana.
- » **Dr. Kim Finley-Stansbury** (Visual Arts) - \$33,437 from the Louisiana Endowment for the Humanities for “Picturing America: American Art History in the K-12 Classroom,” a summer teacher institute that presented American historical and cultural content based upon visual arts reproductions.

Continuing Education

2007 - 2008

The Division of Continuing Education and Special Activities' main functions are the coordination of all non-credit and special activities, both on and off-campus, and the coordination of off-campus credit courses and telecourses. Continuing Education strives to meet the needs of the non-traditional student as well as the needs of business, industry, government, and the public sector. The division offers a variety of camps during the summer, and is also responsible for reserving Southeastern's facilities for off-campus groups.

Accomplishments of Continuing Education during the 2007-2008 academic year include:

- » 5,589 students enrolled in academic courses at nine off-campus sites
- » 15,891 students enrolled in electronically delivered courses - 715 classes
- » 453 students enrolled in non-credit courses resulting in 75.3 CEU's awarded
- » 4,073 students participated in Summer Camp Programs
- » 30 off-campus groups reserved Southeastern's facilities, attracting over 15,000 visitors to the campus
- » 248 workers attended the Incumbent Worker Training Program courses taught by Southeastern instructors
- » 947 workers attended the Incumbent Worker Training Program courses taught by outside vendors
- » 185,297 individuals attended events at the University Center (not including students attending classes)

Technology Resources 2007 - 2008 (continued)

Linus A. Sims Memorial Library: Sims Library utilizes a variety of technologies, including a 24/7 virtual reference service, to deliver resources and services to the students and faculty of Southeastern. The Library's online catalog, electronic indexes, full-text databases, and an electronic reserves system are made available on 130 computers throughout the building. Internet access, printing, and wireless technology are also offered. Many of the Library's operations are handled through the statewide automated library system, Sirsi UnicornLink, operated by the LOUIS office at Louisiana State University. Interlibrary Loan transactions are facilitated through use of ILLiad, an electronic Interlibrary Loan system, and through use of Ariel software designed to facilitate timely delivery of articles. The Library also subsidizes article delivery services for faculty and graduate students through Ingenta, a database which offers citations from 20,000 multi-disciplinary scholarly journals, in addition to electronic alerting and table of contents services. Within the Library, a computer lab, partially funded by the Student Technology Fee, provides access to a variety of application software packages. A computer with adaptive equipment and software, (including JAWS, Naturally Speaking, ZoomText, and OpenBook), is available in the Media Department. Two laboratory classrooms allow hands-on learning for students enrolled in the Library's credit course teaching information literacy skills and for course-specific bibliographic instruction classes. An additional classroom for non-credit instructional sessions utilizes a wireless laptop system to allow hands-on experience, and a presentation practice studio allows students to develop and rehearse multi-media presentations individually or in small groups. The Library's webpage provides links to the myriad of resources and services, with online forms available for a variety of service requests.

Center for Faculty Excellence: The Center for Faculty Excellence helps faculty assess and incorporate technology in their teaching through workshops, seminars, and individualized training. The Center offers software support ranging from basic office applications to graphics and video editing programs, as well as a variety of equipment including scanners, color printers, and digital cameras. The knowledge and skills faculty gain through the Center are transformed into tools and strategies that enhance both traditional and distance learning environments.
