

DEPARTMENT OF MANAGEMENT

OBJECTIVES

The overall educational objective of the Management undergraduate program is to provide students with a conceptual foundation in management and a skills base necessary to build successful careers in industry or to succeed in graduate school. Other program objectives include:

1. Students will acquire a basic knowledge and understanding of human resource management, entrepreneurship and small business management, computer information management, and organizational management.
2. Students will develop an appreciation for contemporary challenges facing managers such as diversity in the workplace, the global economy, technological change, and ethics in managerial decision-making.
3. Students will develop essential managerial skills such as interpersonal skills, oral and written communication skills, and problem-solving skills.
4. Students will be able to apply technology for the purposes of organizational management and problem solving.

Specific educational objectives for each concentration within the undergraduate program in Management include:

Entrepreneurship and Small Business Management. Students will acquire a basic knowledge and understanding of entrepreneurship and managing small businesses in the areas of forms of ownership, sources of financing, organizing, marketing strategies, facilities management, and budgeting. Students will be able to demonstrate competencies in the core aspects of building a business plan.

General Management. Students will acquire a basic knowledge and understanding of organizational management. Students will be able to demonstrate managerial competencies in planning, organizing, and controlling organizational resources.

Human Resource Management. Students will acquire a basic knowledge and understanding of the human resource management functional areas of human resource planning, recruitment and selection, compensation and benefits, and human resource development. Students will be able to demonstrate competencies in conducting job analyses, and developing compensation programs.

International Management. Students will acquire a basic knowledge and understanding of international management in the areas of international trade, cross-cultural communication, and methods of doing business internationally.

MAJOR IN MANAGEMENT

In addition to fulfilling general education core requirements, students must complete 36 semester hours of major core courses. Majors must complete 15 semester hours in one of the concentration areas.

HONORS DIPLOMA IN THE DISCIPLINE

The department also offers an upper-division honors curriculum allowing its students to earn an honors diploma in the major at graduation. For information about requirements and honors courses in this department, please contact the Department Head.

MINOR IN MANAGEMENT

Students from other departments who desire to minor in Management may do so by successfully completing 18 semester hours selected from the following courses: Management 351, 375, 430, 471, 472, 473, 475, 478, and 485. Students minoring in Management must obtain the approval of the Department Head.

Total semester hours required

120-123

Southeastern 101 is not required of transfer or readmitted Southeastern students with 30 hours or more.

¹Please refer to the possible natural science combinations under General Education Requirements in the University Policies chapter of this catalogue for the approved sequenced courses in natural science. Because Chemistry 106 or Physics 142 cannot be followed by a second sequenced course, the student may take only one of these two courses for their natural sciences requirement.

²Concentration course.

³Students with an ACT Math score of 20 or lower will take Math 155 (5 credit hours) in place of Math 161, which will increase by 2 credit hours the total number of hours required for the degree.

†Major course. These courses will be used to calculate the major grade point average, which must be an adjusted or degree 2.0 grade point average.
